

Awards from the Journal of Artificial Intelligence and Systems (AIS)

1. Best Paper Award (BPA)

The award consists of a certificate and a \$5,000 prize. 20% of the articles will be selected each year.

All authors of published articles in this journal will be considered for this award. In selecting the best paper, our editors will take into account a number of factors including contributions/innovations and the number of citations, downloads, and impact which is decided on blind evaluations. The editors' final decision will be made by May each year.

2. Research Excellence Award (REA)

The award consists of a certificate and a cash prize. All published papers will win this reward. The author(s) will receive \$1,000 in total for each paper in this journal.

The award recognizes the individual's contribution to the research community and to the research climate at IEC Science. The award also serves to showcase the high level of scholarly research at IEC Science. By rewarding excellence in research, we not only recognize the achievements of a given author, but also affirm the important role of research in your scholar life/academic career.

3. Outstanding Reviewer Award (ORA)

The award consists of a certificate and a \$500 prize. We will select three reviewers each year.

The Outstanding Reviewer Awards are given to members of the Editorial Board and reviewers who provided constructive, benevolent, and punctual reviews during the previous year.
