

Call for papers - Journal of Artificial Intelligence and Systems(AIS), ISSN 2642-2859

Best Paper Award (BPA)

The award consists of a certificate and a \$5,000 prize. 20% of the articles will be selected each year.

Research Excellence Award (REA)

The award consists of a certificate and a cash prize. All published papers will win this reward. The author(s) will receive \$1,000 in total for each paper in this journal.

Aims & Scope

Journal of Artificial Intelligence and Systems (AIS) is a peer-reviewed open access journal published under the Institute of Electronics and Computer (IEC). It publishes research spanning all aspects of artificial intelligence and systems. Principally focused on the following topics, including knowledge representation, planning, Learning, natural language processing, perception, motion and manipulation, social intelligence, and tools and systems related to AI, the journal will also present review and survey papers that offer up new insights, and lay the foundations for further exploratory and experimental work.

Related topics

- Knowledge representation and reasoning
- Search and information retrieval
- Automated planning and scheduling
- Natural language processing
- Machine learning
- Computer vision
- Speech recognition
- Robotics
- Affective computing
- Artificial Intelligence and Philosophy
- Related tools and systems

Please edit your paper according to the Word or Latex template below and send it to us by email ais@iecsience.org. Online submission system will be available by May 31, 2019.

Editorial Board

Editors-in-Chief

Prof. & SMIEEE, Victor Hugo C. de Albuquerque, University of Fortaleza, Brazil

Prof. & FIEEE, Jinde CAO, Southeast University, China

Co-Editor-in-Chief

Dr. & SMIEEE, Weiping Ding, Nantong University, China

Editorial Board Members

Prof. Kalyanmoy Deb, Michigan State University, United States

Prof. Luis Martínez López, Universidad de Jaén, Spain

Prof. Chris P. Tsokos, University of South Florida, United States

Prof. Haiping Du, University of Wollongong, Australia

Prof. Florentin Smarandache, University of New Mexico, United States

Prof. Huchang Liao, Sichuan University, China

Prof. Enrique Herrera-Viedma, University of Granada, Spain

Prof. Liqiang Nie, Shandong University, China

Prof. Alexander Gelbukh, National Polytechnic Institute, Mexico

Prof. Huanqing Wang, Carleton University, Canada

Prof. Yanzheng Zhu, Huaqiao University, China

Prof. Hongyi Li, Bohai University, China

Dr. Nicola Capuano, University of Salerno, Italy

Dr. Pawel Plawiak, Cracow University of Technology, Poland

Dr. Mohammadreza Babaei, Technical University of Munich, Germany

Dr. Haishuai Wang, Harvard University, United States

Dr. Ze Tang, Jiangnan University, China

Dr. Gai-Ge Wang, Ocean University of China, China

Dr. Raquel Ureña, De Montfort University, United Kingdom

Dr. Abhijit Bhattacharyya, National Institute of Technology Andhra Pradesh, India

Dr. Yun Raymond Fu, Northeastern University, United States

Dr. Abolfazl Saghafi, University of the Sciences in Philadelphia, United States

Dr. David Ruano Ordás, University of Vigo, Spain

Dr. Shafiullah Soomro, Chung-Ang University, South Korea
